

BTOG Masterclass: Immunotherapy Tips & Tricks

Thursday 9th December 2021 17:30-18:30

Applied for 1 category 1 (external) CPD credit (code 138552)

From the Federation of the Royal Colleges of Physicians of the United Kingdom

Chair: Sanjay Popat

17:30	Immunotherapy in SCLC	Raffaele Califano
17:40	Immunotherapy in NSCLC	Shobhit Baijal
17:50	Managing Immunotherapy Toxicities	Joanne Evans
18:00	Panel Discussion and Q&A	
18:30	Close	

Declarations

1. BTOG confirms that all speakers will introduce themselves and will include as their 1st slide a declaration of conflict of interests and this will be visible to attendees.
2. BTOG confirms there will be a clear view of each speaker's slides. Each speaker will talk to the slides and their voice will accompany the slide discussion (where applicable).
3. BTOG confirms that participants viewing the educational presentations live will be able to submit questions and comments via live webinar chat.
4. BTOG confirms that if RCP approves this live webinar BTOG will provide access via BTOG's online resources and note that CPD will apply to the archived version for four weeks after the event date – we will ensure participants viewing the full archived version will be awarded the appropriate CPD and be issued a certificate of attendance.

Biographies

Dr Shobhit Bajjal is a dedicated Consultant Medical Oncologist based at The Heart of England NHS Foundation Trust. He studied Medicine in London and obtained a BSc Honours in Immunology and Cell Pathology from University College London before graduating with my medical degree from St Bartholomew's Medical School in 2001. Shobhit Bajjal returned to the Midlands to complete his General Medical and Oncology training and took up post as Consultant Medical Oncologist in September 2011. He is the Clinical Lead for Oncology at the Heart of England NHS Trust and actively treats lung and colorectal cancer patients. He specialises in all forms of cancer drug treatment including chemotherapy, immuno-oncology, precision oncology and chemo-embolisation.

Shobhit Bajjal has a large clinical trial portfolio and is the UK Chief Investigator for the international COTEZO trial, manipulating immunotherapies to treat patients with advanced colorectal cancer. He is also a Principle Investigator in National and International lung and colorectal clinical trials and sits on the Roy Castle Lung Cancer Foundation advisory panel. He is at the forefront of the clinical utility of liquid biopsy in managing lung cancer patients and has several studies underway in this context.

Dr Raffaele Califano graduated in Medicine and Surgery, summa cum laude, from the University of Perugia, Italy, in 2003 and completed his specialist training in Medical Oncology, summa cum laude, in 2007. He then worked as Clinical Research Fellow with the lung and melanoma team at The Christie, being an investigator for several clinical trials in lung cancer and melanoma and developing a particular interest in molecularly driven clinical trials in lung cancer. Dr Califano has been a consultant at The Christie and University Hospital of South Manchester since 2012 and specialises in the treatment of thoracic malignancies. Dr Califano is the author of several papers published in indexed peer-reviewed international journals and he has been an invited speaker to several national and international oncology meetings.

Professor Sanjay Popat is Consultant Thoracic Medical Oncologist at the Royal Marsden Hospital and Professor of Thoracic Oncology at the Institute of Cancer Research. Professor Popat has published in the fields of genetics, therapeutic biomarkers and medical oncology. He has been awarded nationally and internationally competitive prizes for his research, in addition to 4 research fellowships. He has published over 150 papers and is an active member of the EORTC Lung Group, has been elected to the Foundation Council of ETOP and is past chair of the UK NCRI Lung Cancer CSG Advanced Diseases Subgroup. Professor Popat joined the BTOG Steering Committee in 2010 and was elected Chair of the Steering Committee in 2013.

Dr Joanne Evans is Consultant in Medical Oncology, BSc (Hons), MBBS (Lond) (Dist), MRCP (UK)(Medical Oncology), PgDip (Oncology), DPhil (Oxon), Imperial College, London.
