

**BTOG Surgical Webinar – Controversies in the Management of Early-Stage Lung Cancer
Thursday 25th March 2021
17:30 to 18:30**

Chair: Alan Kirk, Consultant Thoracic Surgeon, Scotland
Panel Lead: Ehab Bishay, Consultant Thoracic Surgeon, Birmingham

17:30	Introduction	Alan Kirk
17:31	Anatomical segmentectomy as an alternative to lobectomy	Malcolm Will Consultant Thoracic Surgeon, Edinburgh
17:46	SABR for early-stage lung cancer- the real evidence	Robert Stevenson Consultant Clinical Oncologist, Birmingham
18:01	Electromagnetic navigational bronchoscopy: a new platform for ablation	Kelvin Lau Consultant Thoracic Surgeon, London
18:16	Panel Discussion and Q&A	Ehab Bishay
18:30	Close	

Declarations

1. BTOG confirms that all speakers will introduce themselves and will include as their 1st slide a declaration of conflict of interests and this will be visible to attendees.
2. BTOG confirms there will be a clear view of each speaker's slides. Each speaker will talk to the slides and their voice will accompany the slide discussion (where applicable).
3. BTOG confirms that participants viewing the educational presentations live will be able to submit questions and comments via live webinar chat.
4. BTOG confirms that if RCP approves this live webinar BTOG will provide access via BTOG's online resources and note that CPD will apply to the archived version for four weeks after the event date – we will ensure participants viewing the full archived version will be awarded the appropriate CPD and be issued a certificate of attendance.

Biographies

Kelvin Lau

Consultant Thoracic Surgeon, London

I am consultant and lead thoracic surgeon at St Bartholomew's Hospital, London.

I qualified from the University of Oxford in 2002. During my time at Oxford I was awarded a ICRF scholarship to investigate molecular angiogenesis and vascular targeting of anti-cancer treatment at the Institute of Molecular Medicine for which I was awarded a doctorate of philosophy.

After my training, I obtained his membership in 2005, and was awarded the only cardiothoracic surgery national training number in 2006. I received my training in Glenfield Hospital, Nottingham and London, and went on to complete a minimally invasive thoracic surgery fellowship at the Chinese University of Hong Kong where I was then made honorary assistant professor.

On return to the UK in 2013, I was appointed as the first consultant thoracic surgeon for St Bartholomew's Hospital where I set up the thoracic surgery service, introduced VATS lobectomy and endobronchial programmes, and recently, one of the first dedicated 24/7 cardiothoracic robotic surgery programme in the UK.

In November 2015, I led the first team in Europe to successfully use the latest version of navigation bronchoscopy and went on to do the first in the world endobronchial microwave ablation of lung tumour in February 2018.

Robert Stevenson

Consultant Clinical Oncologist, Birmingham

Dr Stevenson qualified from the University of Warwick in 2005. He trained within the West Midlands and was appointed as Consultant Clinical Oncologist at University Hospitals Birmingham in 2014. Dr Stevenson is also a visiting consultant to Sandwell and West Birmingham Hospitals NHS Trust and Heart of England NHS trust. Dr Stevenson specialises in the treatment of lung and urological cancers with chemotherapy, hormonal therapy and radiotherapy.

Dr Stevenson is also involved in 4-dimensional and stereotactic lung radiotherapy within Birmingham and has experience in delivering Cyberknife treatment to an early stage of lung cancer.

Dr Stevenson has published papers in peer-reviewed journals and is the principal investigator (PI) for a number of national clinical trials.

Malcolm Will

Consultant Thoracic Surgeon, The Royal Infirmary of Edinburgh. Specialist interest in minimally invasive thoracic surgery, airway diseases, chest wall disorders and interventions for COPD
